**Notes**  
 HOST\_\* properties are representing the host I'm connected to and are available without a deviceTRUST client installed on the remote device  
 DEVICE\_\* properties are representing the remote device and are only available if a deviceTRUST client is installed on the remote device  
 Native RDP information for the remote device IP address are not available on Windows Phone and iOS

**Property Type**  
 Session = This property is a session specific property and is valid for the lifetime of the user session  
 Dynamic = This property is a dynamic property and is checked for changes once per minute (can be defined)  
 Dynamic (Real Time) = This property is a real time property and gets immediately updated when the value has been changed

<sup>(1)</sup> Not available on Microsoft Server 2008 R2 when using Remote Desktop Protocol (RDP)  
<sup>(2)</sup> Not available when using Remote Desktop Protocol (RDP)  
<sup>(3)</sup> The deviceTRUST client is pre-installed in IGEL's own Linux-based operating system IGEL OS (version 10.03.500 or higher) and can be easily activated via the IGEL Universal Management Suite (UMS)
