Senior Software Quality Engineer / Daresbury UK

We're very excited to offer this opportunity to join an energetic company where your ideas and contributions can have a real impact on the business success, in a company that believes in rewarding great ideas and hard work.

deviceTRUST, established in 2016 with offices in Frankfurt, Germany and Daresbury, UK, is a small company with a big vision; to bring contextual security and user experience to the corporate enterprise, allowing users the freedom to access their corporate environment from anywhere on any device, while giving IT departments the information and control they need to meet their governance requirements.

At deviceTRUST, you'll be working closely with a team of experienced engineers and sales professionals, full of energy and with a passion for what we can achieve together. You will join the development team who value agility, simplicity, quality and continuous improvement, whilst always keeping focus on the customer needs. You'll be keen to work with customers or any part of the business to further understand problems or solutions, and you'll take pride in driving solutions through to resolution.

Our UK office is situated at Sci-Tech Daresbury just off Junction 11 of the M56, with easy access from Warrington, Manchester, Liverpool or Chester.

RESPONSIBILITIES:

- Creation and maintenance of a testing environment representative of our target customers.
- Automation of the deviceTRUST product suite within the testing environment.
- Manual testing of the deviceTRUST product where automation is unavailable.
- Contribute to the deviceTRUST product, with input to product roadmap and feature design.
- Excellent communication skills, potentially interacting with our valued customers.

ESSENTIAL:

- Scripting software products within virtualized environments with PowerShell (min 5 years).
- Setup, configuration and maintenance of Citrix XenApp/XenDesktop (min 5 years).
- Setup, configuration and maintenance of Microsoft RDSH (min 5 years).
- Setup, configuration and maintenance of Microsoft Active Directory.
- In depth knowledge of the Microsoft Windows Operating System within an enterprise environment.
- Real world experience of diagnosing problems both internally and within customer environments.

DESIRABLE:

- Setup, configuration and maintenance of VMware View
- Setup, configuration and maintenance of Amazon Workspaces
- Setup, configuration and maintenance of IGEL UMS and ICG server
- PowerShell, PowerShell Remoting
- Remoting technologies RDP, ICA, PCoIP, Blast Extreme.
- Cloud technology awareness within Azure and/or Amazon Web Services.
- Microsoft Visual Studio 2017 and Azure DevOps

BENEFITS:

- Competitive salary
- Private healthcare package
- Annual Bonus
- Share Options Scheme
- Enrolment in company pension scheme matching up to 6% salary
- Generous annual leave
- Gym membership including exercise clubs
- Easy access to the Cheshire Ring Canal or the countryside for lunchtime exercise
- Onsite cafe and restaurant
- Onsite parking
