

Senior Linux Developer / Daresbury UK

We're very excited to offer this opportunity to join an energetic company where your ideas and contributions can have a real impact on the business success, in a company that believes in rewarding great ideas and hard work. Established in 2016 with offices in Darmstadt, Germany and Daresbury, UK, deviceTRUST is a small company with a big vision; to bring contextual security to the corporate enterprise.

The successful candidate will have a passion for the Linux operating system, and a track record of delivering secure software solutions using C/C++. Working with an experienced team, they will be responsible for the development of our new agent for Ubuntu, Red Hat and Linux based thin clients, and enhancing our existing remoting protocol extensions within a multi-platform code base.

Our UK office is situated at Sci-Tech Daresbury just off Junction 11 of the M56, with easy access from Warrington, Manchester, Liverpool or Chester. We are looking for someone that can commute to this office for team activities; however, we are currently working from home for most of the week and expect this to continue.

BENEFITS:

- Competitive salary
- Private healthcare package
- Annual bonus
- Enrolment in company pension scheme matching up to 6% salary
- Generous annual leave
- Flexible working week from home and our Daresbury office
- In addition, our office in Daresbury offers:
 - Gym membership, including exercise clubs (currently limited due to Covid)
 - Easy access to the Cheshire Ring Canal or the countryside for lunchtime exercise
 - Onsite cafe and restaurant
 - Onsite parking

RESPONSIBILITIES:

- Responsible for the development of our agent and enhancing our remoting protocol extensions on Linux within a multi-platform code base.

ESSENTIAL SKILLS:

- Experience creating and maintaining complex secure, multi-threaded C++ projects
- Experience with Modern C++, Git, CMake, GLib, systemd, libnm
- Excellent understanding of security on the Linux platform
- Self-motivated, working as part of a team or on independent projects
- Excellent communication skills

DESIRABLE SKILLS:

- Experience writing extensions to third party products
- Experience with remoting protocols, such as RDP, ICA, Blast, PCoIP.
- Microsoft Visual Studio Code and Azure DevOps
